

NURSING STATION CHAIR PRODUCT FEATURES

healthHcentric Nursing Station Chair offers superior infection control features and are backed by a 10 year warranty. The IC+ PVC-free upholstered seat and under seat seal options completely seal the seat, including the underside of the seat pan, to offer a seamless and impermeable solution against liquids and pathogens.

The Nursing Station Chair is designed to support the tasks required in a 24/7 environment while increasing comfort, health and productivity. Made from the highest quality materials and components, the Nursing Station Chair is backed by a comprehensive warranty and is GREENGUARD® certified.

INTRODUCING A NEW KIND OF MEDICAL GRADE SEATING

healthHcentric chairs are designed with the healthcare industry in mind. A highly durable and impermeable upholstery coating called IC+* is used to form a *seamless moisture-proof barrier*, including the underside of the seat pan (optional), on all healthHcentric chairs.

- +Superior puncture and tear resistance
- +Non-porous
- +Guaranteed not to crack
- +PVC-free
- +Anti-slip protection
- +Superior cleanability and cleaning agent tough
- +Bed bug proof
- +10 year warranty
- +No off-gassing
- +GREENGUARD® certified when upholstered on any healthHcentric chair

*IC+ Medical Grade Protection. Patent Pending.

Proprietary to healthHcentric, IC+ offers superior cleanability, standing up to all cleaning agents including Rescue, bleach, Cavicide, Wex-Cide and Virox 5. IC+ is patent pending and offers an abrasion rating of 1,000,000 double rubs.

ADJUSTABILITY UNDERSTOOD

Patented geometric shaped adjustment paddles differentiate the chairs' adjustment controls helping users to instantly recognize an adjustment option by simply feeling the paddle's shape.

Unique to healthHcentric, easily-identified instruction icons represent adjustment paddle shapes and are clearly visible on an icon plate. The convenient location of these new icon plates provide a clearer view of the adjustment options as well as a visual reminder to adjust the chair and what paddles to use for each chair adjustment. A web site address marked on the icon plate indicates where the user can access a step-by-step adjustment guide video.

DURABLE, COMFORTABLE & FLEXIBLE

The Nursing Station Chair is designed from top to bottom to be easily cleanable and easily sterilized. The plastic back cap provides additional durability and cleanability. The stool's IC+ backrest and seat pan is seamless and the seat pan is completely sealed underneath. As well, seat's upholstered in vinyl or other healthcare fabrics can be sealed underneath using IC+. Despite the strength of IC+ it is soft enough to be comfortable while sitting.

The Nursing Station Chair offers multiple seat pan options to accommodate a wide range in body types. Swing away and height adjustable arm options are also available to provide additional upper body support and assist in getting in and out of the chair.

A WIDE RANGE IN SEAT HEIGHTS

The Nursing Station Chair offers a wide range in seat height options to accommodate a variety of leg lengths and work surface height requirements.

Left Small back with plastic back cap
